

Product function introduction

1. Choose long nozzle butane gas bottle

2. Insert vertically the butane gas bottle

3. Put the butane torch down after 4-5 minutes, then to use

Please note :

1. To ensure safety, there should be no fire around and no smoking when refilling,
2. Please use qualified butane gas, inferior gas may damage your butane torch and reduce its service life.
3. If the gas cannot be refilled, there may be excess air remains in the butane torch, and you can deflate at this time. Use a small screwdriver to align the air inlet and quickly deflate 1-2 times, and then to refill.
4. After fully filled, wait at least 5 minutes to adjust the temperature of the newly charged gas to the room temperature, then to ignite

How to Use

1. Press the button to ignite

2. Push the button to lock direction, Keep burning, free your hands

3. Rotate to adjust the flame size

4. For safety, push the button towards lock direction to lock down the torch after use
